Dear Kia Retailer,

Kia America is pleased to announce pricing for the first ever 2025 Kia K4 compact sedan. The value-oriented Compact Car segment is one of the best-performing categories this year making the all-new K4 the right-car at exactly the right time to bring more new customers into your dealerships.

Improved Value Through Segment-up Design, Space and Standard Equipment

- An all-new name and all-new design, featuring a low, sleek, futuristic body, the K4 offers a "class-up" appearance that your customers will be proud to own, especially as it costs thousands less than its looks suggest.
- Larger exterior dimensions translate into generous interior room for five adults and delivers 2-inches of more rear seat legroom that rivals some midsize sedans. Its sleek silhouette also provides an ample 14.6 cubic feet of trunk space.
- More standard conveniences and technology upgrades than Forte, including the addition of Smart Key with push-button starting, smart cruise control with full stop & go, an all-new digital instrument cluster with a 54% larger infotainment touchscreen and a temporary spare tire.
- More peace-of-mind with expanded ADAS features (now 11 standard), newly added Rear side airbags, and bright LED headlights and LED taillights.

Newly Available Advanced Tech and Performance options to attract Savvy Buyers

- 30" Panoramic Digital Cockpit (as found in the flagship EV9)
- 360 Surround View Monitor and Blind View Monitor
- Power Memory Driver Seat
- Enhanced GT-Line with larger 18" wheels/tires, a multi-link rear suspension (previously turbo-only) and optional Red SynTex seating (a popular K5 option)
- 1.6 Turbo with 190-HP, steering wheel paddle shifters, plus more refinements

Along with the change in name, K4's trim structure has been updated to accommodate the new features on this segment leading sedan. There are now five trims: LX, LXS, EX, GT-Line, GT-Line Turbo. Launch timing will be staggered with start of sales (see grid below).
