PREMIER MAINTENANCE PLAN

Premier Maintenance Plan Levels:

- **Standard Maintenance Plan** – includes oil changes, tire rotations and multipoint inspections
- **Premium Maintenance Plan** – includes the services available under the Standard Maintenance Plan in addition to coolant and transmission services
- **Premier Wrap Plan** – coverage begins when services under your manufacturer or dealer maintenance plan expire
- **Rental Car Service** - can be added to either plan for even greater convenience

Based on your individual driving habits and your vehicle's manufacturer-recommended service requirements, the selling dealer will help you tailor a maintenance plan to match your needs. After your service and mileage intervals are determined, all you need to do is return to the selling dealership, and the dealer will perform the services that are due.

Premier Maintenance Plans help simplify your vehicle's maintenance needs by allowing you to have multiple services performed in one convenient location by factory-trained technicians, including services which may be required by the vehicle manufacturer.

Most importantly, a Premier Maintenance Plan takes the guesswork and worry out of budget concerns because the cost of the plan can be included with your monthly vehicle payment - ensuring that both your vehicle and your wallet are covered.
