GRENADIER

1. Accessories Display

The Retail Partner is required to ensure that customers can view the range of INEOS Grenadier accessories in the showroom. Accessories must be displayed on showroom and demonstrator vehicles in line with the INEOS Automotive Vehicle Policy published on the Partner Portal.

Accessories information showing the price and any other information in line with market specific legislation must be displayed in line with the CI guidelines published on the Partner Portal.

INEOS Automotive reserves the right to stipulate certain accessories must be made available to customers on demonstrator cars.

It is the Retail Partners responsibility to maintain appropriate stock levels in line with market demand (if applicable).

Retail Partners must not engage directly with any current or potential suppliers or licensees (unless instructed to do so by the Aftersales or Accessories teams).

GRENADIER

1.1 Strategy for Retail Partners

Accessories will be displayed fitted to the vehicles.

There will be at least two vehicles available one dynamic (Test ride) and one static in the showroom.

Approved INEOS and Rhino Rack accessories will be organized in different packs (see 1.2 & 1.3 Accessories Packs) with the key accessories to promote and display.

Retail partners to select the accessories pack that they want to display based on specific market/area characteristics.

GRENADIER

2. Product Offering

Considering the great number of applications that the Grenadier will have, INEOS Automotive provide customers with a broad product offering.

All INEOS Grenadier accessories have been developed with the vehicle, ensuring the same standards for quality and reliability.

2.1 Exterior

	NAME	DESCRIPTION
	Side Runners	Improves accessibility to the cabin and enhances the appearance of your vehicle, as well as adding an extra layer of protection when off-roading. Can also be used to help gain access to cargo area on the roof.
	Rock Sliders	Additional protection for the body and chassis of your vehicle while off-roading. Made of heavy-duty materials and tested under the toughest conditions, the Rock Sliders can also be used as anchoring points for Hi-Lift jack.
	National Flag Plaque - UK	This small, personal feature is perfect to further customise your vehicle and proudly display your chosen national flag.
	National Flag Plaque - US	This small, personal feature is perfect to further customise your vehicle and proudly display your chosen national flag.
	40" Front LED light bar	Enhances lighting performance while driving in challenging off-road environments and conveniently mounts to the roof of the vehicle, connecting to the optional exterior roof connectors. (High load auxiliary switches required)
	Checker Plate for Front Fenders	The Checker Plates enable you to stand on the front fender of the vehicle without damaging the bodywork, and protects the paintwork from small knocks, scratches or dents. It also provides a useful step to access the roof to load and unload cargo.

GRENADIER

	Roo Bar/Bull bar	The Grenadier Roo bar provides protection from impact to the front grill, lights and bodywork of your vehicle. Made of high-quality material with a sleek and sporty design that will enhance the look of your vehicle. Additionally, provides mounting points for additional lights and is compatible with winch set up.
	Roo Bar/Bull bar Side Protection Rails	Provides extra protection for the fenders when off-road, rock crawling or from any other impact. (Roo Bar and Side Runners or Rock Sliders are required for fitment)
	Raised Air intake Cyclone Pre-Cleaner	An additional filtering layer for the raised air intake. Provides the engine with cleaner airflow, keeping out dust and dirt by spinning the air as it enters the raised air intake, preventing contaminants from entering the intake duct.

2.2 Interior

	NAME	DESCRIPTION
	Rubber Floor Mats	High-walled design helps protect floor from water, sand or dirt, perfect whatever the weather conditions.
	Foldable Tailgate Camp Table	A smart feature with two uses: unfolded as a table and as a molle panel to secure pouches when in the upright position.
	Heavy Duty Seat Covers - front row	Protects your seats from water, mud and UV damage, as well as general wear and tear from passengers and pets.
	Heavy Duty Seat Covers- second row	Protects your seats from water, mud and UV damage, as well as general wear and tear from passengers and pets.

2.3 Cargo Management

	NAME	DESCRIPTION
	Full Length Roof Rack	Maximises ability to secure cargo on the roof, including accessories such as rooftop tents, luggage, and mounts for bicycles, canoes, kayaks, skis, etc, without having to use up cabin space.
	Roof Cross-bars	Lightweight bars that allow you to make use of the roof load capacity to transport additional cargo or accessories.
	Utility Cargo Barrier - Half Height	The cargo barrier helps increase safety inside your vehicle, by preventing loadspace cargo from entering the passenger's cabin and keeping pets and other contents safely away from driver and passengers.
	Full-Height Loadspace Divider	Separate your pets, cargo, shopping, luggage and more by splitting your vehicle's loadspace into two separate sections for increased safety while in transit.
	Loadspace Partition Net	Simple way to protect passengers from stowed items in the loadspace area by preventing luggage and pets from entering the passenger compartment without damaging your vehicle's interior.
	Luggage Retention Net - Floor	This net secures items and luggage and prevents them from moving around the loadspace of your vehicle during transit.
	Cargo Management System	The Cargo Management System attaches to the Interior Utility Rails, providing a flexible solution to secure and divide cargo in the loadspace. Keeping it, and you, safe on the move.
	Collapsible Luggage Organiser	Made with high quality material and sturdy side walls, it's ideal for carrying and tidying groceries, toys, sporting equipment, tools and more.

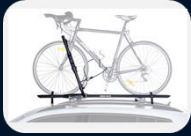

Quick release Tie-down Rings x4

The tie-down rings allow you to secure materials, luggage or any load to both the interior and exterior utility rails of your vehicle.

2.4 Recovery

	NAME	DESCRIPTION
	Removable Rear Winch with Tow Mounting Kit - 3.5 Tonnes	Removable self-recovery feature that mounts to the standard rear towing interface (optional electric preparation is required). Removable, so can be shared among vehicles in a fleet easily.
	Off-Road Recovery Kit	The recovery kit provides useful tools to improve the capability of the winch, while also increasing safety and security.

2.5 Roof Rack & Cross Bars Add-ons

	NAME	DESCRIPTION
	Roof Mounted Bike Carrier	Allows you to secure and carry bicycles on the roof of your vehicle easily and conveniently without having to disassemble the bike.
	Roof Mounted Ski/Snowboard Carrier	Allows you to carry all types of skis and snowboards on the roof of your vehicle.
	Roof Mounted Surfboard Carrier	This carrier allows you to carry all types of surfboards on the roof of your vehicle, giving you a clear view of the rear and side of the vehicle while driving.

	Roof Kayak Mount, J style	This carrier allows you to carry one boat in J-cradle position or two stacked vertically on the roof.
	Roof Kayak Mount, Saddles	Allows you to easily load and carry a kayak safely on the roof of your vehicle by attaching it to two front and two rear saddles.
	Roof Mounted Adjustable Load Holder	This load holder allows you to safely transport and store heavy loads such as timbers, ladders, canoes and more on the roof rack or cross bars.
	Roof Mounted Cargo Box	Allows you to store luggage and equipment in a waterproof container on the roof of your vehicle without using up cabin space.
	Vehicle Integrated Side Awning	This awning is mounted on the side of the roof rack and deploys 270° to provide maximum shade and protection from the elements while camping.
	Spare Tyre Carrier for Roof Rack	This bracket provides a secure way to transport a spare wheel on the roof rack
	Jerry Can Mount for Roof Rack	Allows you to safely secure and transport a jerry can on the roof rack.
	Hi-Lift Jack Mount for Roof Rack	The secure way to carry a high-lift jack by fixing it to the roof rack.
	Roof Mounted Axe and Shovel Bracket	This bracket allows you to fix an axe or shovel in an easily accessible and secure place on the roof rack of your vehicle, to avoid using up cabin space.
	Sand Ladder Flat Mounting Brackets	Allows you to secure sand ladders in flat position on the roof of your vehicle to avoid using up cabin space.

	Sand Ladder Side Mounting Brackets	Allows you to secure sand ladders on the side of the roof rack or cross bars to avoid using up cabin space.
	Spot Light Bracket	This bracket allows you to fit small work or spot lights to the roof of your vehicle.
	Gas Bottle Holder for Roof Rack	Allows you to transport different gas or propane bottles on the roof rack simply and securely.
	Load Mounting Brackets for Roof Rack	Allows you to secure any square, hard-shelled container on the roof of your vehicle - including coolers, storage bins, or even a toolbox.
	Roof Tie-Down Rings	Tie down rings that let you secure materials, luggage or any load to the roof rack or cross-bars.
	Folding Aerial Mount	Designed with versatility in mind. Offering 180° rotation for aerials, antennas, flags, small LEDs and spotlights and can be fitted perfectly to your roof rack.
	Lockdown Security Cable	Adds security and peace of mind when you leave items on the roof of your vehicle by locking them in place.
	Cargo Load Straps	These straps allow you to secure items or large loads onto the roof of your vehicle.
	Heavy Duty Spade	Heavy duty, heat treated, high-carbon steel spade that has been zinc plated for maximum strength and rust protection.

RotopaX Mounting
Bracket

This bracket allows you to secure RotopaX jerry cans (max 18kg) onto the roof of your vehicle.

Fitment instructions will be available in several languages via download and accessible through a QR-code contained in each package.
